

Clinical waste management

Kent Clinical Waste make things straight forward with our medical sharps bins and collection services. Tell us about your sharps waste and we'll do the rest.

You'll receive the correct, legally compliant bins for your needs along with expert advice and a reliable collection service to dispose of your waste when you need it. We also provide free of charge your pre waste acceptance audit.

All waste is collected in all of our own vehicles with no sub contractors or agency staff used.

Offensive waste disposal management

Kent Clinical Waste offer you a fully licensed collection and disposal service that brings you, your staff and the public the assurance that contaminated offensive waste is professionally and permanently dealt with.

Offensive waste is non-hazardous but even for non-hazardous waste, there are still stringent requirements for how such waste must be labelled, stored, collected and treated.

We can provide you with all necessary consumables for the packaging of offensive waste and incontinence waste. These are colour-coded and available in various sizes to suit you

Most businesses will generate some form of offensive waste or non-infectious waste every day, which could include incontinence waste, nappy waste or sanitary waste, as well as protective garments such as masks and gloves.
